

- 1 - CounterMax MX-LD-R LED Disc
- 2 - Connecting Cord
- 3 - Distribution Hub 6-Way
- 4 - 2A Driver 12V

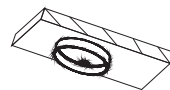

Surface Mount Installation

Step One

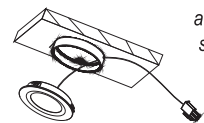

Using hands, separate outer aluminum shell from LED lamp.

Step Two

Using included hardware and a screw driver, secure outer aluminum shell to cabinet surface

Step Three

Feed connecting cord through a pre-drilled hole in the cabinet surface or through the cut-out of the outer aluminum shell. Secure LED lamp into outer aluminum shell.

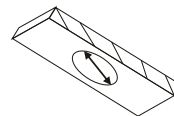

Recessed Installation

Step One

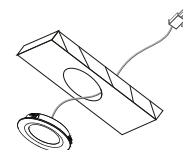

Using hands, separate outer aluminum shell from LED lamp.

Step Two

Cut out from the bottom of the cabinet a hole using a 2.5" hole saw.

Step Three

Feed connecting cord through the hole in cabinet and secure LED lamp.
